Garden Checklist

1. Plant perennials now for bloom in spring and summer. Delphinium, primrose, coral bells, candytuft, columbine and shasta daisy are but a few of the many available.
2. Plant bare-root roses this month and start pruning old roses.
3. Be sure to keep Christmas gift plants watered. An occasional airing on the back porch or by an open window will benefit most of them also.
4. Plant artichokes, asparagus and several other vegetables from divisions or from seedling flats this month.
5. Make your first planting of gladioli as soon as they show up in the nurseries. Some are already on the market.

UCLA Slates Credit Series

University of California Extension School in the San Gabriel Valley. The courses will be offered in cooperation with the Credit Managers Assn. of Southern California, University of California Business Administration Extension, and a suggested course of study will lead to the Associate and Fellow Awards of the National Institute of Credit. Enrollment is limited in all classes. Further information may be obtained from University of California Extension offices on the UCLA campus.

Winter Driving Places Extra Stress on Car

Driving in wet weather and on snow-covered mountain roads places extra demand on some of the safety equipment of an automobile.

With winter here it is suggested that motorists have the following items carefully inspected:

1. Tires. Smooth tire treads have little traction on wet or snow-covered pavement and can cause dangerous skids.
2. Windshield wipers. Make sure they are working properly and that the blades wipe the windshield clean without leaving streaks.
3. Heater-defroster system.

A service man should inspect the heater-defroster to determine that it is operating efficiently.

4. Exhaust system. Leaks in the system may allow exhaust gases to circulate inside the car. In winter driving with car windows open only a crack or closed entirely can be extremely dangerous.

5. Lights. All lights, including turn signal and brake lights, should be checked.

6. Cooling system. When a trip to the mountain snow areas is contemplated, the cooling system should be carefully inspected. This should include a check of all hoses and the fan belt. The cooling system should be drained and flushed and then anti-freeze added.

Cake Decorating Set

Gardena Community Center, 1651 W. 162nd St., has scheduled a cake decorating class to begin Jan. 7. Pre-registration is required. Further information may be obtained by calling DA 4-6266.

'Doll' Course Open

A class in the art of Japanese doll making is scheduled at the Gardena Community Center, 1651 W. 162nd St., beginning Jan. 8. Further information may be obtained by calling DA 4-6266.
